University of New Hampshire
InterOperability Laboratory

Testing Services

We offer Firewall Testing Services designed to improve validity, robustness, and performance of Firewalls, Next Generation Firewalls, Security Devices, and other Network Protection Products including IDS and IPS. In addition, we offer product testing and certification for USGv6 and NetSecOPEN.

Testing Programs:

- NetSecOPEN Certification
- USGv6 Test Program
- IPv6 Ready Logo Program
- Malaysian Technical Standards Forum Bhd Specification for IPv6 Compliance

IOL INTACT® Test Software

We offer IOL INTACT® software for IPv6 Core, CE Router, DHCPv6 and IPsec/IKEv2 Testing. This software includes pass/fail results reporting allowing testers to work from any location. With IOL INTACT® your product can be tested with the same tool used for IPv6 and USGv6 testing, allowing issues to be resolved before sending products for official testing.

Key Benefits

- Increased confidence in your product.

- Save money by reducing time to market.

- Use industry recognized test reports for sales and certifications.

- Access to custom test equipment and software saving you time and money.

- Ability to shape our roadmap to better serve industry needs.

- Ability to test multiple standards against globally recognized products all in one lab.

- Acts as an extension of in-house test labs providing debugging and technical expertise.
